

PROFESSIONAL SUMMARY

A results-driven Software Engineer & Backend / Python API Developer with 7+ years of hands-on experience in designing, developing, and optimizing scalable enterprise web, mobile, and API applications. Specialized in PHP (Laravel, Symfony), Python (FastAPI, Django), Flutter Mobile Development, and Cloud Optimization (AWS), with a strong focus on performance tuning, code optimization, and system scalability. Experienced in SaaS development, Stripe billing, automation workflows using Celery and Python, and building secure, maintainable products across the full software development lifecycle.

TECHNICAL EXPERTISE

PHP Ecosystem

Laravel, Symfony, Core PHP, Doctrine ORM, WordPress

Python API & Automation

FastAPI, Django, Django REST Framework, Celery, Stripe API, Scrapy

Frontend & JS Stack

React.js, Vue.js, Node.js, Bootstrap, JavaScript, jQuery, Ajax

Mobile Development

Flutter, Dart, Android Native

Databases & Payments

MySQL, PostgreSQL, MongoDB, SQLite, Redis, Stripe, Webhooks

DevOps & Tools

AWS, Docker, Linux, Git, Jira, Bitbucket, Third-party APIs

EXPERIENCE

Freelance Software Engineer

Self-Employed / Remote

2021 - Present

Delivered custom web and mobile solutions for clients across multiple business domains.

Built Laravel, Python, and WordPress-based solutions with a focus on performance and maintainability.

Handled client communication, feature planning, deployment, and ongoing support independently.

Software Engineer & Backend / Python API Developer

Vivan Web Solution Pvt. Ltd.

2018 - 2021

Spearheaded end-to-end development of enterprise-grade web applications using PHP frameworks and modern JavaScript.

Built high-performance async REST APIs using FastAPI and robust backends with Django REST Framework.

Developed SaaS platforms with Stripe billing, subscriptions, and secure integrations.

Designed scalable database schemas and refactored legacy codebases to improve performance by over 30%.

Created Python automation scripts, Celery task queues, and workflow data pipelines.

Collaborated directly with stakeholders for project scope, sprint planning, and standards compliance.

FEATURED PROJECTS

National Sports ID

PHP & MySQL • Team Size: 5 • Major sports platform for leagues, teams, players, and coaches.

MobileMoxie

React JS & Symfony • Mobile SEO and ASO platform with dynamic UI and backend services.

Capexplan

Symfony 2 & React.js • Capital expenditure management software for enterprise planning.

B2B Banking Portal

Vue.js & Laravel • Admin panel for banking operations with analytics dashboards.

Wall Street Italia

Symfony & WordPress • Financial news and analysis platform.

UTT Project

Symfony Framework • High-scalability development and maintenance work.

Transportation Advisory

PHP & MySQL • Product management system for employees and sub-users.

FastAPI SaaS Platform

Python & FastAPI • Multi-tenant SaaS platform with Stripe billing and automation workflows.

Django Automation Suite

Python & Django • Data scraping, reporting pipelines, and REST API integrations.

One Noble Pharma

WordPress • Medicine-focused website for showcasing pharmaceutical products and brand information.

Kumbh Visit

WordPress & Elementor • Travel guide website built for Kumbh visitors with planning and destination content.

EDUCATION

Bachelor of Computer Application

Sardar Patel University
2018
CGPA: 9.42 (Grade A)

Higher Secondary (12th Science)

Madhavlal Shah High School
2015
Grade B (68%)

Secondary School (10th SSC)

Madhavlal Shah High School
2013
Grade B (47%)

PERSONAL INFORMATION

Date of Birth

02-Mar-2001

Nationality

Indian

Languages

English, Hindi, Gujarati
